

- PRESS RELEASE -

GRAVEL TOUR DU MONT BLANC 2023 POSTPONED

It is with profound regret that we announce the postponement of Gravel Tour du Mont Blanc 2023.

It is with profound regret that we announce the postponement of Gravel Tour du Mont Blanc 2023.

Since the launch of Gravel Tour du Mont Blanc last year, we have received extraordinary support from participants, sponsors and cycling fans from all over the world. We were determined to continue this adventure and make the second edition an exceptional experience for everyone.

However, despite our best efforts, we have been faced with major logistical problems that make it impossible to hold the event in the optimal conditions that we would like this year. Despite weeks of studying various solutions to overcome these obstacles, we remain unable to guarantee the quality and safety of the event.

We understand how disappointing this news must be for all those who were looking forward to the Gravel Tour du Mont Blanc in 2023 and we share your disappointment.

We would like to thank all the participants who have shown their enthusiasm for the event. We will continue to work hard to resolve the logistical issues so that the Gravel Tour du Mont Blanc can take place in 2024.

We would like to thank all our partners, sponsors and the media who have supported us so far. Your commitment to Gravel Tour du Mont Blanc is invaluable and we look forward to counting on your continued support for future editions.

We remain committed to making the Gravel Tour du Mont Blanc an unforgettable event and look forward to seeing you at the next edition.

Sincerely,

The Gravel Tour du Mont Blanc organisation team.
